

I thought that the FCC was suppose to make sure that the airwaves are owned by the people! I'm very distrurbed by the Sinclair Group's decision to air an anti-Kerry film just days before the election. That sounds like partisan politics to me and an abuse of power. I think the the media has forgotten who it is suppose to represent and I predict that there will be a big backlash if this program gets aired. People are getting very angry and disturbed about the turn of events the last few years. It is time for the FCC to start being responsible to the American people and not to the big media conglomerates!
